HISTORY

The university is named after Simon Fraser, loyalist, fur trader and explorer, who in 1808 completed a great journey in the annals of Canadian history by descending the river which today bears his name. In January 1963, a report recommended the creation of a new university in the Lower Mainland — two months later the establishment of Simon Fraser University received formal assent in the British Columbia Legislature and Dr. Gordon M. Shrum was appointed the first chancellor.

From a variety of sites, the chancellor recommended the top of Burnaby Mountain, with its magnificent views of Burrard Inlet, the Coast Mountains, the Fraser River and Vancouver harbour – the unceded, traditional and occupied lands of the Skwxwú7mesh Úxwumixw (Squamish), səliłwətaʔ (Tsleil-Waututh), kʷikʷəłəm (Kwkwetlem) and xʷməθkʷəyəm (Musqueam) peoples.

The Vancouver firm of Erickson/Massey won the design competition, but the four runner-up architects each designed at least one building within the overall plan. Construction began in the spring of 1964 and 18 months later, on September 9, 1965, SFU opened to 2,500 charter students.

Since then, the university has expanded to downtown Vancouver and the Surrey Central district. The Vancouver campus has grown from a modest storefront offering night school classes in the early '80s to the largest post-secondary institution downtown. SFU Vancouver's nine sites offer degree and continuing studies opportunities for students and include several galleries, innovation centres, a student residence and the internationally renowned Morris J. Wosk

Centre for Dialogue. SFU's Vancouver campus celebrated 30 years of learning, research and community engagement in 2019.

Since 2002, SFU's Surrey campus has helped define and shape Surrey's city centre. The campus offers a diverse number of undergraduate, graduate and continuing studies courses and is home to world-class, leading edge research in health, energy and creative technologies. The Surrey campus also supports a thriving entrepreneurial learning environment. The campus currently occupies a stunning facility designed by renowned architect Bing Thom. In the fall of 2019, SFU's Surrey campus opened its newest 160,000 square foot building, the last project designed by the late Thom. The building houses SFU's new School of Sustainable Energy Engineering, featuring innovative labs and a 400-seat lecture theatre for both academic and community use.

Simon Fraser University is characterized by its adventurous spirit, openness, willingness to embrace bold initiatives and its commitment to reconciliation. SFU's unique educational programs, inspired research and vibrant community relations set it apart from other universities — in B.C. and in Canada.

SFU respectfully acknowledges that its three campuses reside on the traditional, unceded territories of the Skwxwú7mesh Úxwumixw (Squamish), səliłwətaʔ (Tsleil-Waututh), xʷməθkʷəyəm (Musqueam), kʷikʷəłəm (Kwkwetlem), Kwantlen, qíçəy (Katzie), Qayqayt, Semiahmoo and Tsawwassen peoples.

MEDAL RECIPIENTS

GRADUATE DEAN'S MEDAL

Avinash Kumar, PhD **Faculty of Science** **Ceremony E**

During his PhD, Avinash Kumar experimentally demonstrated that, under certain conditions, a hot system could cool faster than a warm system when coupled to a common cold reservoir—a phenomenon known as the Mpemba effect. Next, he demonstrated the inverse Mpemba effect, where a cold system heats up faster than a warm one under identical conditions. His work on anomalous heating in colloidal systems is the first observation in any system, opening avenues for its observation in other physical systems in the future. He received several honours at SFU, including the Billy Jones Graduate Award in Physics.

MEDAL RECIPIENTS

GRADUATE DEAN'S MEDAL

Shiva Hajian, PhD **Faculty of Education** **Ceremony H**

For her PhD thesis, Shiva Hajian used controlled experiments to investigate the role of specific types of feedback on participants to reduce misconceptions while learning the physics of waves. She is a researcher in the field of discovery learning within simulations, and collaborates with other researchers to develop practical cognitive and metacognitive tools that can be implemented in interactive environments to benefit learners at all levels. Her goal is to advance inquiry tools (e.g. virtual labs, games, simulations, VR technology, etc.) to enhance learner-centered knowledge construction. She also teaches research courses at SFU and is dedicated to promoting an open research culture.

Thomas Coulton Royle, PhD **Faculty of Environment** **Ceremony H**

For his PhD thesis, Thomas Royle studied the relationship between Indigenous peoples and fish in the Pacific Northwest and Great Lakes by analyzing DNA extracted from ancient fish bones. This research entailed developing new genetic methods that improve the ability of researchers to determine the species and sex of ancient fish bones. A recent application of these methods has shown ancestral *səlilwətaʔ* (Tsleil-Waututh) fishers sustainably harvested chum salmon for centuries prior to colonization by preferentially harvesting males. He received several awards, including a \$105,000 scholarship from SSHRC, and has published 13 peer-reviewed journal articles. Dr. Royle is currently a postdoctoral fellow at SFU.

For her Honours thesis in the Department of Indigenous Studies, Ashley examined culturally informed risk factors for Indigenous offenders. As a SSHRC Joseph-Armand Bombardier Master's Scholar, Ashley will continue her research on offender risk assessment, Indigenous justice, and decolonization as a graduate student in the School of Criminology. As an iTaukei (Fijian) student, Ashley is passionate about Indigenous justice and has been a dedicated volunteer in Vancouver's Downtown Eastside neighbourhood. Ashley has found meaningful ways to assist vulnerable populations and to educate youth about Indigenous experiences in Canada.

SFU's most prestigious undergraduate medal is bestowed on the graduating student whose high scholastic standing and extracurricular activities demonstrate outstanding qualities of character and unselfish devotion to the university.

Xin (Spencer) Chen, BA **Faculty of Arts and Social Sciences** **Ceremony B**

An international student from China, Spencer is graduating with a Bachelor of Arts in Psychology. Her thesis examined the dehumanization of suicide attempt survivors. She is passionate about advancing psychology and social justice, and contributed to research in six different labs while maintaining a CGPA of 4.21. Sophia Angelica Dobischok, BA, BSc **Faculty of Arts and Social Sciences** **Ceremony A**

Sophia was a Gordon M. Shrum Major Entrance Scholar and completed two concurrent bachelor degrees at SFU in just five years. With a curriculum that ranged from neuroanatomy to Shakespeare, Sophia appeared on the President's Honour Roll for 10 consecutive semesters and received numerous awards, including the O'Connell Prize in Children's Literature and the Shenul Dhalla Award in English. Between studies, Sophia enjoyed serving as a tour guide at Student Central, volunteered for the Active Bystander Network, was president of the Open Mic Club, served as a Science Undergraduate Society executive member and worked as a research assistant.

Marina Cummiskey, BA **Faculty of Arts and Social Sciences** **Ceremony B**

At SFU, Marina competed as a varsity swimmer and became a member of the Student Athlete Advisory Committee where she advocated for student-athlete mental health. With an interest in athletic retirement processes, she used her studies in psychology and kinesiology along with personal experience to initiate support systems for graduating athletes, and to volunteer on an athletic retirement study with an SFU psychology lab. For her dedication to her coursework and the athletic community, Marina earned academic honours and the opportunity to pursue a master's degree in sport psychology at McGill University this fall.

Daniel Garrett, BBA **Beedie School of Business** **Ceremony D**

Daniel transferred to Simon Fraser University on an entrance scholarship awarded for academic excellence. Accepted into the Department of Economics, he worked to complete the prerequisites for acceptance into the Beedie School of Business. There, he set a goal of becoming an equity analyst for the Beedie Endowment Asset Management Fund (BEAM), which manages money on behalf of the SFU treasury. Daniel helped manage the fund while maintaining strong grades throughout his time at SFU.

MEDAL RECIPIENTS

Gerrik Yin Kit Wong, BSc **Faculty of Science** **Ceremony E**

Gerrik Wong graduates with a 4.29 CGPA. He twice received the Patrick McTaggart-Cowan Award in Physical Science, and has consistently appeared on the President's and Dean's honour rolls. Gerrik completed two NSERC Undergraduate Student Research Awards, one under the supervision of Professor Gary Wang, and one under the joint supervision of Professors Nilima Nigam and James Wakeling. The latter project, which investigated muscle modelling, was used for his undergraduate thesis "Dynamic Extensions to a 3-D Continuum Mechanics Muscle Model."

He is excited to now continue his high-tech career as a silicon design engineer at Advanced Micro Devices in Santa Clara, California.

Simran Kaur Purewal, BA **Faculty of Health Sciences** **Ceremony F**

Simran was deeply engaged in the SFU community as a student leader in the Health Sciences Undergraduate Student Union, a peer mentor, and founder and editor-in-chief of the *Health Sciences Undergraduate Journal*. She also pursued various experiential learning opportunities, including co-op and the Health Change Lab. Simran published two papers as a first author from her involvement in the COVID-19 Canada Health Literacy study, and was a research associate for a community-engaged project exploring the experience of internationally trained physicians with the Canadian licensing process. She is planning to pursue a master's degree in science.

Cassandra Christensen, BGS **Faculty of Education** **Ceremony H**

For the past five years, Cassandra has worked hard to prepare herself for a career in education, earning several scholarships and appearing on the Dean's and President's Honour Rolls. During her time at SFU, she also worked as an elementary art instructor, early childhood educator, and volunteered in elementary schools, gaining valuable experience in applying theory to practice. Her time as a student and educator magnified her passion for creating caring and inclusive learning environments. She plans to continue her academic journey in SFU's Professional Development Program and hopes to one day complete a master's in education.

Mireta Marlowe Strandberg-Salmon, BEnv **Faculty of Environment** **Ceremony H**

Mireta came to SFU to grow her skills as a change-maker. While studying Resource and Environmental Management and Dialogue, Mireta co-founded Ban the Bottle, a project that mobilized SFU to eliminate bottled water and install 168 refill stations. Mireta was a research assistant at the Beedie School of Business, helping to embed sustainability into businesses, and completed co-op terms in urban forest stewardship, impact assessment, carbon markets, and circular economy. CEREMONY H

OUR TRADITION

SYMBOLS OF SIMON FRASER UNIVERSITY

The original Coat of Arms was granted to the university in 1965 by the Lord Lyon, King of Arms, in Edinburgh. The 1965 arms was registered in Canada in 2007.

In 2007, the Canadian Heraldic Authority granted a modification of the Coat of Arms at the request of the university. The arms are based on the arms of Fraser of Lovat, from whom the university's namesake was descended via the Frasers of Culbokie. The blue quarters with white "fraises" i.e., strawberry flowers (a pun on the name Fraser) are on the basic Fraser arms, while the white quarters with red crowns are those of Lovat. There are three books at the top of the shield, representing education. The heraldic description of the arms is: "Quarterly; first and fourth Azure three fraises Argent; second and third Argent three antique crowns Gules, all within a bordure quarterly Argent and Gules, on a chief Gules three open books proper, bound and edged Or."

The university's motto, "Nous sommes prêts", meaning "We are ready", is a variation of the traditional motto of the Clan Fraser.

The mace was commissioned by university architects Arthur Erickson and Geoffrey Massey, and was presented to the university at the opening ceremonies on September 9, 1965. The mace is 61 inches long and weighs 23 pounds. Pieces of cut and polished jade, which were taken from the university's jade boulder in the Academic Quadrangle reflecting pond, were set in silver by its designer, Haida artist Bill Reid. The mace is crowned by a silver stag's head, derived from the coat of arms of Lord Lovat, head of the Clan Fraser. The Fraser tradition was to fasten sprigs of yew in their bonnets before entering battle, and the mace was carved from a two hundred-year-old yew, gathered on Burnaby Mountain by a resident in the 1940s.

Lord Lovat presented the university with a claymore, or great sword, on September 9, 1965. The claymore was first used by a Fraser at the Battle of Culloden Moor in 1746. It was also used by a Fraser at the Battle of the Plains of Abraham in 1759. The claymore is approximately 36 inches long and weighs two pounds.

The university's flag is based on the coat of arms, and was first flown at the Convocation ceremonies in June 1981.

REGALIA

The regalia worn today by our graduates has a colourful history.

Regalia originated in the monasteries of the Middle Ages. At that time, university faculty were men of religion who wore the habit of their order when teaching. Over time, their garments came to identify their university. In Europe, laymen did not commonly teach in universities until the 19th century. Only after 1858, for example, did British law no longer require university dons to be in holy orders. Nevertheless, professors continued to wear clerical garb, with modifications in cut and design.

Regalia colours often matched those of the university patron, or of the city in which the university was located; Simon Fraser regalia combines the red and royal blue of the Clan Fraser.

The degree hood was originally part of the monk's habit — a carryall for food or other small items. Eventually, the hood became separate from the gown, variegated in colour, and emblematic of scholars and degrees from particular universities. Hoods in Canada and Europe are unique in design and colour to each degree and each university.

The history of the mortarboard worn by our bachelor's and master's graduands begins with high church dignitaries in the 16th century. These officials wore hats consisting of little more than a cap with a raised, squared crown. By the 18th century, the crown had evolved into a cloth-covered board, and the wearers into the deans and rectors of universities. The 19th century saw the top knob replaced by a tassel and the cap become required student attire. Reminiscent of the square board masons used to hold mortar, students dubbed the headgear a "mortarboard" — college slang of the day.

Doctoral hats are patterned after the Florentine hats in the time of the Medici. Students purchased hats of the appropriate university colours when continuing with advanced studies after completing the bachelor's degree.

THE PRESIDENT'S AND CHANCELLOR'S REGALIA

In early 2020, following on the Calls to Action presented in SFU's Aboriginal Reconciliation Council report, SFU undertook to renew the President and Chancellor's regalia with a design that would respectfully honour the first peoples and the traditional lands on which the SFU Burnaby campus resides.

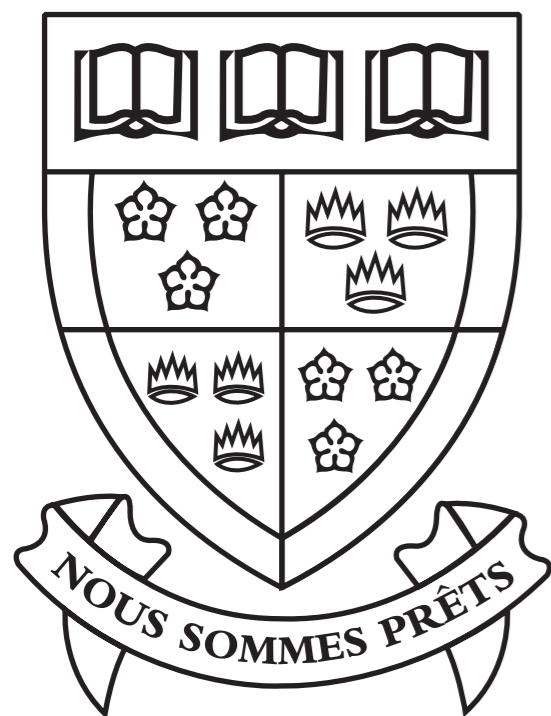

The motifs that appear on the regalia were chosen and designed by Hereditary Chief Janice George (Chepximiya Siyam') and Willard 'Buddy' Joseph (Skwetsimeltxw) of the Skwxwú7mesh Úxwumixw (Squamish Nation). Local designer Beverli Barnes designed the gowns.

These motifs can also be seen on the Newxniw'chet (*The Teachings*) Salish blankets that hang in SFU's Saywell Hall Atrium. They represent the first peoples that lived on Burnaby Mountain and the food they harvested there. The motifs also represent leadership and nobility, adaptability, the past and the present. Arranged on the gowns in contemporary colours and fabric, the patterns evoke the style of a traditional Salish blanket.

"The Salish blanket, worn as a ceremonial robe, is an object of extraordinary complexity. Said to exist in the supernatural realm, these robes are made manifest in the natural world through Ancestral guidance. Wearing a woven blanket during ritual is transformative, moving the individual from the mundane to a sacred space. They are protective garments that at times of great changes in a person's life... offer emotional strength. The object, the maker, the wearer, and the community itself are bound and transformed through the creation and use of the Salish blanket".
